

Dear Ladies and Gentlemen !

At the end of this eventful year we all look forward to the peace of Christmas time, to find new energy for the New Year 2010, hopefully excellent New Year.

We would like to thank you for the invaluable cooperation in 2009.

We wish you and your family a Merry Christmas and a very Happy New Year.

## New products for the replacement market

The demands of our highly esteemed IAM partners are always in the focus of Vibracoustic Engineering team, as an integrated part of the complex engineering activity including the advanced and system development as well as the specific product development for the new generations of vehicles of our OEM partners.

Enlargement of Vibracoustic product range for the replacement market is a systematic target oriented activity. Not only in 2009 but every year we have increased significantly the variety of airsprings available for the Independent Aftermarket. We are proud to offer the same premium quality products for our IAM partners, as we supply for our OEM partners.

The following chart shows the latest part numbers recently added to our IAM product range. If you need any further technical information about these products, we shall be more than happy to assist you.

Vibracoustic no.	Assembly	Application	OEM P/N or other information
V 1D23b	S.A.	MAN	81.43601.0025
V 1D28f-7	C.A.	ROR	21222239 with steel piston
V 1DF16c-1	C.A.	VOLVO Truck	20582214 FH/FM series
V 1DF16d-1	C.A.	VOLVO Truck	20582215 FH/FM series
V 1DF20a-1	C.A.	VOLVO Truck	20582209 FH/FM series
V 1DF20b-1	C.A.	VOLVO Truck	20582206 FH/FM series
V 1DK 21 K-3Y14	C.A.	BPW30K-3	with composite piston
V 1DK32X15	C.A.	BPW36	with steel piston
V 1DK32 Y 13	C.A.	BPW36	with composite piston
V 1DK32LX14	C.A.	BPW36-1	with steel piston
V 1DK32X9	C.A.	BPW36	with steel piston
V 1DF19C-1	S.A.	MAN TGA/TGX	81.43601.0153
V 1D28a-16	C.A.	SAF-Holland 2922V/250	3.229.0036.00 steel piston
V 1DK22e-13	C.A.	SAF-Holland 2621V	3.229.0038.00 composite piston
V 1DK22e-14	C.A.	SAF-Holland 2626V	3.229.0039.00 composite piston
